1/2 OZ 33/400 REGULAR WALL STRAIGHT BASE WHITE PP JAR

This jar packaging format deserves evaluation within the complete product and container system. Sidewall geometry should be judged for label laydown, panel resistance, and how cleanly users can recover product. Final selection should follow formula testing, closure trials, decoration review, and line qualification. Potential uses include skin-care creams, body butter, hair treatments, wellness powders, and supplements. The assembled package should communicate quality before the product is used.
