0.5 OZ 15/415 DRUG OVAL WHITE HDPE BOTTLE

This bottle packaging format pairs a defined specification with practical manufacturing and consumer-use considerations. The 15/415 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. Final selection should follow formula testing, closure trials, decoration review, and line qualification. Appropriate markets can include cosmetics, personal care, wellness, supplements, household, and specialty products. A thoughtful specification gives operations and brand teams the same target.
