15/415 BLACK PHENOLIC ROYAL CAP F217

The development value of Part 132100, the 15/415 Black Phenolic Royal Cap F217, lies in how its stated attributes guide component pairing and positioning. The 15/415 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. Potential uses include prestige beauty, wellness, pharmaceutical, supplement, and specialty-product packaging. Final approval should follow closure-fit testing, seal evaluation, decoration review, and shipping trials.

SKU: 132100 | **Categories:** Caps, Compression Molded Caps, Non-Dispensing Caps, Plastic Caps |
