1/4 OZ 38/400 REGULAR WALL STRAIGHT BASE WHITE PP JAR

Likely development programs include skin-care creams, body butter, hair treatments, wellness powders, and supplements. Part 119370 should be judged on technical fit, line performance, and the finished user experience. Wall construction influences hand feel and panel stability, especially with dense creams or hot distribution conditions. Production-intent samples should be filled, sealed, decorated, and distribution-tested before commercialization. That discipline protects both package performance and the consumer experience.
