11 ML 18/415 STELLA NAIL POLISH GLASS BOTTLE

The commercial value of this nail-polish bottle depends on disciplined component integration. Evaluate the complete package for compatibility, panel behavior, top load, labeling, and filling efficiency. The 18/415 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. Likely development programs include nail lacquer, treatment, base coat, top coat, and salon programs. A thoughtful specification gives operations and brand teams the same target.
