28/400 RIBBED WHITE TRIGGER SPRAYERS

SKU: 128220 | **Categories:** Regular Sprayers, Sprayers, Trigger Sprayers |

PRODUCT DESCRIPTION

Specified as Part 128220, the 28/400 Ribbed White Trigger Sprayers brings its key size, finish, material, and color attributes into one development reference. The 28/400 designation should be verified dimensionally

because nominal finish names do not guarantee identical sealing behavior. Test the actual formula for output, priming, leakage, actuation feel, and distribution durability. Its application range extends to home care, automotive, pet care, and professional cleaning.
