15/415 GOLD METALIZED PLATEAU CAP F217

Phenolic rigidity supports a precise feel, but liner selection and torque remain central to reliable sealing. This compression-molded closure pairs a defined specification with practical manufacturing and consumer-use considerations. The format can serve prestige beauty, wellness, pharmaceutical, supplement, and specialty-product packaging. Final approval should follow closure-fit testing, seal evaluation, decoration review, and shipping trials. The objective is a package that feels intentional at every point of use.

SKU: 132160 | **Categories:** Caps, Compression Molded Caps, Non-Dispensing Caps, Plastic Caps |
