4 OZ 89/400 DOUBLE WALL ROUND BASE LOW PROFILE WHITE PP JAR

A generous opening improves filling and access, but closure diameter also affects cost, torque, and shelf proportion. For Part 118760, the central question is how the jar packaging format behaves in the assembled package. The format can serve skin-care creams, body butter, hair treatments, wellness powders, and supplements. Confirm compatibility, closure fit, decoration adhesion, line handling, storage, and distribution performance. That discipline protects both package performance and the consumer experience.
