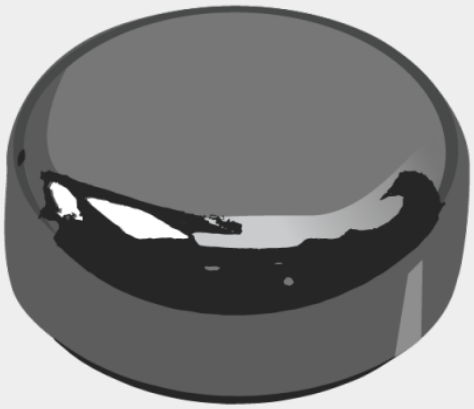
58/400 SILVER METALIZED DOME CAP F217



The format can serve prestige beauty, wellness, pharmaceutical, supplement, and specialty-product packaging. Tall and decorative profiles can improve presence while adding leverage that makes torque control more noticeable to users. Part 136580 gives development teams a focused basis for testing this compression-molded closure. Confirm thread fit, torque, liner performance, leakage resistance, and opening behavior on production containers. That discipline protects both package performance and the consumer experience.

SKU: 136580 | **Categories:** Caps, Compression Molded Caps, Non-Dispensing Caps, Plastic Caps |
