# 70/400 WHITE SYMPHONY JAR LID

This packaging closure pairs a defined specification with practical manufacturing and consumer-use considerations. It is relevant to cosmetics, personal care, wellness, supplements, household, and specialty products. Even on the same neck finish, liner thickness and thread engagement can materially change seal performance. Confirm thread fit, torque, liner performance, leakage resistance, and opening behavior on production containers. This is where practical engineering and brand presentation need to agree.

**SKU:** 129670 | **Categories:** Caps, Dispensing Caps, Flapper Caps, Plastic Caps |
