# 16 OZ 24/410 IMPERIAL ROUND WHITE HDPE BOTTLE

The 24/410 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. Potential uses include cosmetics, personal care, wellness, supplements, household, and specialty products. This bottle packaging format pairs a defined specification with practical manufacturing and consumer-use considerations. Use representative samples to validate sealing, handling, decoration, storage stability, and shipping durability. A thoughtful specification gives operations and brand teams the same target.
