18/415 TREATMENT PUMP SHINY SILVER/WHITE/CLEAR HOOD

For Part 126670, the central question is how the treatment pump behaves in the assembled package. Approve the system only after formula compatibility, functional cycling, and distribution testing are complete. The 18/415 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. Potential uses include serums, facial concentrates, scalp care, and targeted treatments. The best result will balance line efficiency with intuitive consumer use.
