20/415 TREATMENT PUMP SHINY SILVER/WHITE/CLEAR HOOD

For Part 126720, the central question is how the treatment pump behaves in the assembled package. Appropriate markets can include serums, facial concentrates, scalp care, and targeted treatments. Small dosage targets make prime count, output consistency, actuator feel, and formula recovery especially visible to users. Filled-package trials should confirm dosage, recovery, sealing, component fit, and shipping performance. The best result will balance line efficiency with intuitive consumer use.
