1/2 OZ 48/400 DOUBLE WALL STRAIGHT BASE IMF PP JAR

Jar selection should balance filling access with closure weight, decoration area, and the product's expected use rate. This jar packaging format deserves evaluation within the complete product and container system. It is relevant to skin-care creams, body butter, hair treatments, wellness powders, and supplements. Final selection should follow formula testing, closure trials, decoration review, and line qualification. The objective is a package that feels intentional at every point of use.
