38/400 RED-YELLOW DISPENSING CAP TWIST OPEN RIBBED PP

Specified as Part 130250, the 38/400 Red-Yellow Dispensing Cap Twist Open Ribbed PP brings its key size, finish, material, and color attributes into one development reference. Final approval should follow closure-fit testing, seal evaluation, decoration review, and shipping trials. The 38/400 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. Likely development programs include adhesives, hair color, laboratory liquids, craft products, and specialty chemicals.

SKU: 130250 | **Categories:** Caps, Dispensing Caps, Plastic Caps, Plastic Polytop Caps |
