4 OZ 58/400 REGULAR WALL OVAL CLEAR PET JAR

Product teams may consider it for personal care, wellness, supplements, specialty foods, beverages, and household products. The commercial value of this jar packaging format depends on disciplined component integration. Jar selection should balance filling access with closure weight, decoration area, and the product's expected use rate. Final selection should follow formula testing, closure trials, decoration review, and line qualification. A thoughtful specification gives operations and brand teams the same target.
