40/400 SIIVER UNISHELL CAP F217

When the brief calls for a well-defined packaging closure, Part 128270, the 40/400 Silver Unishell Cap F217, provides a practical specification to evaluate. The 40/400 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. It may fit briefs involving cosmetics, personal care, wellness, supplements, household, and specialty products. Use filled-package trials to qualify fit, liner compression, leakage, and repeated opening performance.
