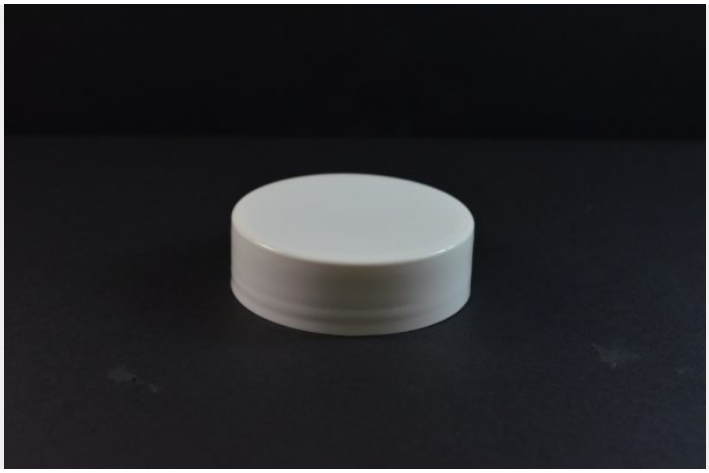
70/400 WHITE FLAT EXTRA TALL SYMMETRICAL CAP



Likely development programs include cosmetics, personal care, wellness, supplements, household, and specialty products. Even on the same neck finish, liner thickness and thread engagement can materially change seal performance. For a production-intent package, the 70/400 White Flat Extra Tall Symmetrical Cap (Part 131660) offers a defined packaging closure rather than a generic starting point. Final approval should follow closure-fit testing, seal evaluation, decoration review, and shipping trials.

SKU: 131660 | **Categories:** Caps, Non-Dispensing Caps, Plastic Caps, Symmetrical Plastic Caps |
