100/400 BLACK UREA STRAIGHT SIDED CAP F217

The 100/400 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. Product teams may consider it for prestige beauty, wellness, pharmaceutical, supplement, and specialty-product packaging. Part 137080 gives development teams a focused basis for testing this compression-molded closure. Prototype with the intended container and product to verify torque range, sealing, and consumer handling. This keeps sourcing decisions tied to measurable package requirements.
