110/400 WHITE SMOOTH STRAIGHT PP CAP / PS LINER

The 110/400 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. The commercial value of this packaging closure depends on disciplined component integration. Product teams may consider it for cosmetics, personal care, wellness, supplements, household, and specialty products. Before release, evaluate application torque, seal integrity, removal force, and distribution performance. The objective is a package that feels intentional at every point of use.
