12 ML 15/415 GLENDA SW NAIL POLISH GLASS BOTTLE

The 15/415 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. It is relevant to nail lacquer, treatment, base coat, top coat, and salon programs. The commercial value of this nail-polish bottle depends on disciplined component integration. Commercial approval should reflect filled-package testing under realistic processing and distribution conditions. The objective is a package that feels intentional at every point of use.
