

13/415 GOLD METALIZED X TALL CAP F217

Potential uses include prestige beauty, wellness, pharmaceutical, supplement, and specialty-product packaging. Part 131880 gives development teams a focused basis for testing this compression-molded closure. Tall and decorative profiles can improve presence while adding leverage that makes torque control more noticeable to users. Prototype with the intended container and product to verify torque range, sealing, and consumer handling. Good component decisions here can prevent costly changes during scale-up.

SKU: 131880 | **Categories:** [Caps](#), [Compression Molded Caps](#), [Non-Dispensing Caps](#), [Plastic Caps](#) |
