

## 13/415 NAIL POLISH PP CAP GRENADA SMOOTH WHITE

Part 116410, the 13/415 Nail Polish PP Cap Grenada Smooth White, addresses both the technical and visual decisions that shape a finished nail-polish closure. Final approval should follow closure-fit testing, seal evaluation, decoration review, and shipping trials. A decorative cap must still support comfortable rotation, consistent brush alignment, and dependable closure torque. Product teams may consider it for nail lacquer, treatment, color cosmetics, and professional salon programs.
