13/415 NAIL POLISH PP CAP SONDRIO AS BLACK

Part 116300 describes the 13/415 Nail Polish PP Cap Sondrio AS Black, a nail-polish closure whose commercial value depends on thoughtful component integration. Use filled-package trials to qualify fit, liner compression, leakage, and repeated opening performance. Cap proportions influence grip and brush control, while stem alignment affects application accuracy and bottle wiping. Product teams may consider it for nail lacquer, treatment, color cosmetics, and professional salon programs.
