

13/415 NAIL POLISH PP CAP TUCSON SMOOTH BLACK

Part 116360 describes the 13/415 Nail Polish PP Cap Tucson Smooth Black, a nail-polish closure whose commercial value depends on thoughtful component integration. The 13/415 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior.

Product teams may consider it for nail lacquer, treatment, color cosmetics, and professional salon programs. Confirm thread fit, torque, liner performance, leakage resistance, and opening behavior on production containers.
