# 13 ML 15/415 ALICE NAIL POLISH GLASS BOTTLE

For Part 115600, the central question is how the nail-polish bottle behaves in the assembled package. It is relevant to nail lacquer, treatment, base coat, top coat, and salon programs. At this smaller scale, fill accuracy and decoration tolerances can have an outsized effect on perceived quality. Confirm compatibility, closure fit, decoration adhesion, line handling, storage, and distribution performance. Good component decisions here can prevent costly changes during scale-up.
