

15/415 BLACK PHENOLIC ECLIPSE CAP F217

This compression-molded closure deserves evaluation within the complete product and container system. Likely development programs include prestige beauty, wellness, pharmaceutical, supplement, and specialty-product packaging. A premium cap profile still requires careful review of thread engagement, liner compression, and removal force. Use filled-package trials to qualify fit, liner compression, leakage, and repeated opening performance. The objective is a package that feels intentional at every point of use.
