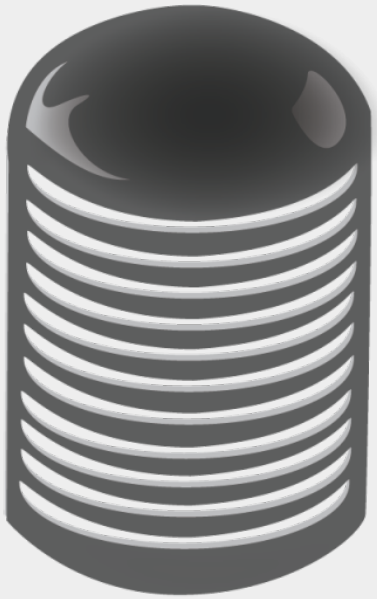
15/415 SILVER METALIZED RING CAP F217



Part 132250 should be judged on technical fit, line performance, and the finished user experience. Prototype with the intended container and product to verify torque range, sealing, and consumer handling. Tall and decorative profiles can improve presence while adding leverage that makes torque control more noticeable to users. Its application range extends to prestige beauty, wellness, pharmaceutical, supplement, and specialty-product packaging. Good component decisions here can prevent costly changes during scale-up.

SKU: 132250 | **Categories:** Caps, Compression Molded Caps, Non-Dispensing Caps, Plastic Caps |
