15/415 SILVER METALZIED ECLIPSE CAP F217

For a production-intent package, the 15/415 Silver Metalzied Eclipse Cap F217 (Part 132230) offers a defined compression-molded closure rather than a generic starting point. Tall and decorative profiles can improve presence while adding leverage that makes torque control more noticeable to users. Final approval should follow closure-fit testing, seal evaluation, decoration review, and shipping trials. It may fit briefs involving prestige beauty, wellness, pharmaceutical, supplement, and specialty-product packaging.

SKU: 132230 | **Categories:** Caps, Compression Molded Caps, Non-Dispensing Caps, Plastic Caps |
