# 15/415 SILVER METALZIED X TALL CAP F217

The format can serve prestige beauty, wellness, pharmaceutical, supplement, and specialty-product packaging. Part 132280 gives development teams a focused basis for testing this compression-molded closure. The 15/415 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. Qualification should cover thread engagement, liner compatibility, line application, and expected storage conditions. The best result will balance line efficiency with intuitive consumer use.
