16 OZ 120/400 WHITE THICK WALL STRAIGHT BASE PP JAR

This jar packaging format deserves evaluation within the complete product and container system. Jar selection should balance filling access with closure weight, decoration area, and the product's expected use rate. Appropriate markets can include skin-care creams, body butter, hair treatments, wellness powders, and supplements. Use representative samples to validate sealing, handling, decoration, storage stability, and shipping durability. This is where practical engineering and brand presentation need to agree.
