FOR DETAILS

The 24/410 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. Part 110710 gives development teams a focused basis for testing this bottle packaging format. It is relevant to cosmetics, personal care, wellness, supplements, household, and specialty products. Confirm compatibility, closure fit, decoration adhesion, line handling, storage, and distribution performance. The best result will balance line efficiency with intuitive consumer use.
