FOR DETAILS

Specified as Part 110370, the 16 oz 28/410 Cylinder Round White HDPE Bottle brings its key size, finish, material, and color attributes into one development reference. Final selection should follow formula testing, closure trials, decoration review, and line qualification. The 28/410 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. Its application range extends to cosmetics, personal care, wellness, supplements, household, and specialty products.
