18/415 FINE MIST SPRAYER GOLD/WHITE/CLEAR HOOD DT 155MM

SKU: 127450 | **Categories:** Fine Mist Sprayers, Metal Overshell Fine Mist Sprayers, Sprayers |

PRODUCT DESCRIPTION

Plume width and droplet size should suit the use distance; a fine cosmetic mist differs from a targeted spray. Appropriate markets can include facial mist, fragrance, hair care, sun care, and aromatherapy. The commercial

value of this fine-mist sprayer depends on disciplined component integration. Approve the system only after formula compatibility, functional cycling, and distribution testing are complete. The assembled package should communicate quality before the product is used.
