# 2" DIAMETER WHITE FLIP TOP DISPENSING CAP .250 ORIFICE

Orifice geometry, hinge life, opening force, and shutoff cleanliness should be tuned to the product's viscosity. This flip-top dispensing closure pairs a defined specification with practical manufacturing and consumer-use considerations. It may fit briefs involving personal care, hair care, sun care, wellness, and household products. Before release, evaluate application torque, seal integrity, removal force, and distribution performance. The objective is a package that feels intentional at every point of use.
