# 2 OZ 58/400 LOW PROFILE CLEAR PET JAR

For Part 119010, the central question is how the jar packaging format behaves in the assembled package. It may fit briefs involving personal care, wellness, supplements, specialty foods, beverages, and household products. Wall construction influences hand feel and panel stability, especially with dense creams or hot distribution conditions. Commercial approval should reflect filled-package testing under realistic processing and distribution conditions. Good component decisions here can prevent costly changes during scale-up.

**SKU:** 119010 | **Categories:** Heavy Wall Plastic Jars, Jars, Plastic Jars |
