

2 OZ 58/400 WHITE THICK WALL STRAIGHT BASE PP JAR

The 58/400 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. The commercial value of this jar packaging format depends on disciplined component integration. Product teams may consider it for skin-care creams, body butter, hair treatments, wellness powders, and supplements. Production-intent samples should be filled, sealed, decorated, and distribution-tested before commercialization. This is where practical engineering and brand presentation need to agree.
