2 OZ 70/400 REGULAR WALL STRAIGHT BASE WHITE PP JAR

Part 119740 gives development teams a focused basis for testing this jar packaging format. At this smaller scale, fill accuracy and decoration tolerances can have an outsized effect on perceived quality. It is relevant to skin-care creams, body butter, hair treatments, wellness powders, and supplements. Final selection should follow formula testing, closure trials, decoration review, and line qualification. That discipline protects both package performance and the consumer experience.
