PRODUCT DESCRIPTION

The 20/410 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. Appropriate markets can include facial mist, fragrance, hair care, sun care, and

aromatherapy. PackagingBuyer Part 127670 identifies the 20/410 Fine Mist Sprayer Silver/White/Clear Hood DT 155MM, a fine-mist sprayer worth evaluating for function, presentation, and production fit. Test the actual formula for output, priming, leakage, actuation feel, and distribution durability.
