20/415 BLACK PHENOLIC RING CAP F217

Likely development programs include prestige beauty, wellness, pharmaceutical, supplement, and specialty-product packaging. Phenolic rigidity supports a precise feel, but liner selection and torque remain central to reliable sealing. The 20/415 Black Phenolic Ring Cap F217 (Part 133070) gives brands a concrete compression-molded closure for balancing usability, manufacturing, and shelf communication. Prototype with the intended container and product to verify torque range, sealing, and consumer handling.
