**SKU:** 127730 | **Categories:** Fine Mist Sprayers, Metal Overshell Fine Mist Sprayers, Sprayers |

## PRODUCT DESCRIPTION

When the brief calls for a well-defined fine-mist sprayer, Part 127730, the 20/415 Fine Mist Sprayer Gold/Gold/Clear Hood, provides a practical specification to evaluate. Prototype with the production formula to

evaluate flow, user effort, leakage, and repeatability. The 20/415 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. It is relevant to facial mist, fragrance, hair care, sun care, and aromatherapy.
