20/415 GOLD METALIZED RING CAP F217

The format can serve prestige beauty, wellness, pharmaceutical, supplement, and specialty-product packaging. The 20/415 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. Specified as Part 133150, the 20/415 Gold Metalized Ring Cap F217 brings its key size, finish, material, and color attributes into one development reference. Use filled-package trials to qualify fit, liner compression, leakage, and repeated opening performance.

SKU: 133150 | **Categories:** Caps, Compression Molded Caps, Non-Dispensing Caps, Plastic Caps |
