200 ML 43 MM FOAMER BOTTLE NATURAL HDPE

Shoulder and base geometry deserve line trials because they influence filling stability, label placement, and residual product. It may fit briefs involving cosmetics, personal care, wellness, supplements, household, and specialty products. When the brief calls for a well-defined bottle packaging format, Part 126050, the 200 ML 43 MM Foamer Bottle Natural HDPE, provides a practical specification to evaluate. Commercial approval should reflect filled-package testing under realistic processing and distribution conditions.

SKU: 126050 | **Category:** Foamer bottles |
