22/400 ALUMINUM CAP WITH PE FOAM LINER

Its application range extends to cosmetics, personal care, wellness, supplements, household, and specialty products. Nominal finish compatibility is only the first screen; thread profile, land geometry, torque, and liner compression decide sealing. This packaging closure deserves evaluation within the complete product and container system. Confirm thread fit, torque, liner performance, leakage resistance, and opening behavior on production containers. The assembled package should communicate quality before the product is used.

SKU: 128930 | **Categories:** Caps, Metal Aluminum Caps, Metal Caps |
