22/400 TREATMENT PUMP SMOOTH WHITE

CONTACT US
FOR DETAILS

A prestige actuator must still dispense consistently as viscosity and temperature change through the product's life. For a production-intent package, the 22/400 Treatment Pump Smooth White (Part 127060) offers a defined treatment pump rather than a generic starting point. It is relevant to serums, facial concentrates, scalp care, and targeted treatments. Filled-package trials should confirm dosage, recovery, sealing, component fit, and shipping performance. This keeps sourcing decisions tied to measurable package requirements.

SKU: 127060 | **Categories:** Pumps, Standard Treatment Pumps, Treatment Pumps |
