SKU: 127890 | **Categories:** Fine Mist Sprayers, Metal Overshell Fine Mist Sprayers, Sprayers |

PRODUCT DESCRIPTION

Plume width and droplet size should suit the use distance; a fine cosmetic mist differs from a targeted spray. It may fit briefs involving facial mist, fragrance, hair care, sun care, and aromatherapy. Product developers

comparing fine-mist sprayer options can use Part 127890, the 22/415 Fine Mist Sprayer Gold/Gold/Clear Hood, as a focused candidate for qualification. Test the actual formula for output, priming, leakage, actuation feel, and distribution durability.
