24-410 BLACK RIBBED FLIP-TOP

The 24/410 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. Potential uses include personal care, hair care, sun care, wellness, and household products. Product developers comparing flip-top dispensing closure options can use Part 130821, the 24-410 Black Ribbed Flip-Top, as a focused candidate for qualification. Prototype with the intended container and product to verify torque range, sealing, and consumer handling.
