24/410 WHITE PUSH PULL SOFT RADIUS DISPENSING SYMMETRICAL CAP TO 8 OZ #221

It may fit briefs involving personal care, concentrates, wellness, household, and active-lifestyle products. The mechanism should deliver quick access without sacrificing leakage resistance during transport or active use. Part 130690 should be judged on technical fit, line performance, and the finished user experience. Final approval should follow closure-fit testing, seal evaluation, decoration review, and shipping trials. That discipline protects both package performance and the consumer experience.
