

24-410 WHITE SMOOTH DISC CLOSURES

The 24/410 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. Likely development programs include shampoo, conditioner, lotion, cleanser, gel, and sun care. For Part 130392, the central question is how the disc-top dispensing closure behaves in the assembled package. Final approval should follow closure-fit testing, seal evaluation, decoration review, and shipping trials. That discipline protects both package performance and the consumer experience.

SKU: 130392 | **Categories:** [Bottles, Caps and Pumps Stock in USA](#), [Caps](#), [Dispensing Caps](#), [Plastic Caps](#) |
