24/415 GOLD METALIZED STRAIGHT CAP F217

The 24/415 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. It is relevant to prestige beauty, wellness, pharmaceutical, supplement, and specialty-product packaging. Part 134130 should be judged on technical fit, line performance, and the finished user experience. Use filled-package trials to qualify fit, liner compression, leakage, and repeated opening performance. The best result will balance line efficiency with intuitive consumer use.
